Memo to File:

Re: DOE/027/002
Millard County, Utah

On November 15, 1977 Ken Wright came in to file a DOE on the School section 32, T. 19 S., R. 18 W. Ron Gardner does not hold the lease, Ken Wright does.

They want to go onto the section and hand excavate a small (110' x 60') test pit. If the ore is good they may go into production over 500 TPD.

Brian told Ken that the Division would clear this as an exploratory operation and would not prepare an environmental assessment. Ken was sent to the State Lands for the bonding.
